

VI KHANG NGUYEN

APPLICATION FOR POSITION: TESTER

Phone: 0586678384
Email: 21211tt1285@mail.tdc.edu.vn
Address: 20 An Phu 29, An Phu, Thuan An, Binh Duong

OBJECTIVE

I aim to secure a position in the testing field where I can leverage my experience and education to maximize my potential while effectively carrying out the required tasks.

EDUCATION

2021 - Present **Thu Duc College of Technology**
Faculty of Information Technology
GPA: 6.58

WORK EXPERIENCE

<https://github.com/johnnydang07/Project>

SKILLS

- Problem-solving abilities** Testers need to think critically and creatively to identify and troubleshoot problems that may arise during testing, finding innovative solutions to ensure the quality of the software.
- Good communication skills** Testers need to effectively communicate with developers, project managers, and other team members to convey test results, report bugs, and collaborate on resolving issues.
- Time management and organization** Testers should be able to prioritize tasks, manage multiple testing activities simultaneously, and meet deadlines.
- Collaboration and teamwork** Testers often work as part of a larger development team, so the ability to collaborate, share information, and work effectively in a team environment is crucial.
